## Introduction and Notes

This document contains the file layout and data definitions for the 2021–2022 Initial English Language Proficiency Assessments for California (ELPAC) administered by your local educational agency (LEA). The data include student demographic information, test scores, and test administration information. In addition to the file layout, the following reference tables that define the code sets and rules for selected fields are provided in the [Reference Tables](#) section:

- California Longitudinal Pupil Achievement Data System (CALPADS) Primary Language Codes
- Common Education Data Standards (CEDS) Language Codes
- Primary Disability Codes
- Tested LEA Reporting Rules
- Condition Code Rules
- Condition Codes
- Attemptedness and Participation Rules
- Include Indicator Rules for Reporting
- Include Indicators
- Scale Score Ranges
- Student Move Reporting

The notes in this section provide important information concerning key elements of the file layout.

## Demographics

Student demographic data is derived from the California Longitudinal Pupil Achievement Data System (CALPADS) and reflects student demographics as captured in the demographic snapshot. Demographic snapshots for students who tested occur at the time the student starts testing or for alternate assessment students when scoring is complete, and the score becomes available for reporting in the Test Operations Management System (TOMS). For students that did not test, the demographic snapshot is taken daily until the end of the Initial ELPAC testing window for reporting in the Test Operations Management System (TOMS). Note that the source for each field is indicated in the file layout.

Data sources for the student data file are as follows:

- CALPADS—Extracted from CALPADS
- Derived—Created during generation of the student data file
- Scoring—Created as a result of scoring
- TOMS—Extracted from TOMS
- DEI—Data Entry Interface

## Score Data

Score data includes (1) the overall scale score and performance level, (2) oral language performance levels, and (3) written language performance levels.

## Test Administration Data

Test administration data includes flags and condition codes describing specific elements of test administration. These include flags for Attemptedness codes, Include Indicators, accommodations, domain exemptions, and alternate assessment that occurred during the administration.

## Treatment of Students in Nonpublic, Nonsectarian Schools for Data Aggregation

The school-level data for nonpublic, nonsectarian schools (NPSs) is removed from the aggregate data published on the ELPAC public web reporting site; this data will not be searchable and will not appear in the aggregate reporting. The county, LEA, and direct funded charter school totals continue to include students attending NPSs in their aggregate data. If the Special Education District of Accountability field is populated in the student's data record, then the student record is aggregated to the county, district, and school entity levels or direct funded charter school code provided.

## Fields of Note

The following fields are of particular importance:

Field #	Section	Additional Explanation
1	Assessment Type	Each record in the file will have an <i>Assessment Type</i> in <a href="#">Field 1</a> that identifies the assessment taken. Only Initial ELPAC records are included in this file.
2	UIN (Unique Identification Number)	The UIN, which is unique for every record in the file, may be used to join the records together so that all student information can be matched.
43–49, 52–58, 61–67, and 70–76	Test Details— Testing Locations	<ol style="list-style-type: none"> <li>1. This field shows the LEA name where the test was submitted by the student, regardless of whether the student moved.</li> <li>2. If the student did not test or partially completed the test, this field is populated with the LEA name of the last enrollment with valid registration at the end of the testing window.</li> <li>3. If the student was assigned alternate assessments or alternate assessments and domain exemptions for all domains, this field displays the enrolled LEA name. This is applicable for all grade levels.</li> </ol>
50, 59, 68, and 77	Test Start Date	<ol style="list-style-type: none"> <li>1. The <i>Test Start Date</i> field shows the date on which the student started testing online with the computer-based assessments in the test delivery system (TDS).</li> <li>2. A blank or null value is acceptable only for students who did not test, students who took the paper test, or students who were assigned an alternate assessment or domain exemption.</li> </ol>

Fields of Note (*continuation*)

Field #	Section	Additional Explanation
51, 60, 69, and 78	Testing Completed Date	<ol style="list-style-type: none"> <li>3. This field shows the testing completed date when the test was submitted by the student in the TDS.</li> <li>4. In the case of an expired test, the test completion date is populated using the expiration date. An expired test opportunity was expired by the system using the test expiration rules employed for the specific program, manually expired after the testing window has closed, or automatically expired at the end of the state testing window. Testing opportunities acquired through the DEI cannot be manually expired.</li> <li>5. A blank value is only acceptable for students who did not test, students who were assigned an alternate assessment or domain exemption.</li> </ol>

Field #	Section	Additional Explanation
90	Condition Code	A special condition code indicates the presence of a particular circumstance during testing. Refer to the <a href="#">Condition Codes (Field 90)</a> reference table for a list of codes included in this field. Only one condition code can be applied per record type.
91	Attemptedness	This flag designates students as either partial-completion, or completion. Refer to the <a href="#">Attemptedness Codes (Field 91)</a> reference table for definitions of the statuses.
92	Include Indicator	Include Indicators, when set, indicate how a test result will be treated for reporting the number of students tested, determining which students and scores are included in the aggregated data. Include Indicators also show whether or not a student has taken a required test. Refer to the <a href="#">Include Indicators for Reporting (Field 92)</a> reference table for more information.

## LEA Reporting Rules

LEA reporting rules are used for student data files, aggregate files, and public web reporting.

1. For the online and emergency form test (all grades), students who have tested with a valid score (attemptedness = “Y”) or without a valid score (attemptedness = “P”) are reported under the last tested LEA received for the online domains.
2. For the online and emergency form test (all grades), students who were assigned alternate assessments or alternate assessments and domain exemptions for all domains are reported under the enrolled LEA.
3. For the online and emergency form test (all grades), when the non-assigned domains is tested, student(s) who were assigned alternate assessments or alternate assessments and domain exemptions for fewer than four domains, are reported under the last non-assigned domain tested LEA.
4. Students who have not tested are reported under the enrolled LEA.
5. A student record is present in only one tested LEA student data file per the rules mentioned previously if the student tested in multiple LEAs.
6. The aforementioned tested LEA will be used for aggregate files and public web reporting.

## LEA Reporting Rule Examples

LEA Reporting Rule #	Test Mode	Grade	Listening	Speaking	Reading	Writing	Comments
1, 5, 6	Online and Paper-pencil test	K–12	Day 1	Day 1	Day 2	Day 3	The tested LEA and school for the Writing domain will be reported as the final tested LEA and school.
2, 5, 6	Online and Paper-pencil test	K–12	ALT	Exempt	ALT	Exempt	The student will be reported under the enrolled LEA.
3, 5, 6	Online and Paper-pencil test	K–12	Day 1	Day 2	Exempt	Not tested	The tested LEA and school for the Speaking domain will be reported as the final tested LEA and school.
4, 5, 6	Online and Paper-pencil test	K–12	Not tested	Not tested	Not tested	Not tested	The student will be reported under the last enrolled LEA.
4, 5, 6	Online and Paper-pencil test	K–12	Not tested	Exempt	Not tested	ALT	The student will be reported under the last enrolled LEA.

## Condition Code Rules

Condition codes are used by LEAs and the TOMS team to identify a special condition in a student's test record for reporting, such as setting Include Indicators. Condition codes are derived by TOMS. All condition codes are visible in the TOMS user interface.

1. For system-derived condition codes, the ALT and EXD condition codes are derived based on an alternate assessment or domain exemption assignment in TOMS. The NT condition code is assigned to a student who is eligible to test but did not test and the student's ELAS status changed from TBD to non-TBD ELAS.
2. Exemption results in a no score with an "NS" value assigned by the scoring system. The EXD condition code is reported in the student data files.
3. Alternate assessment results in a lowest obtainable scale score (LOSS) and exemption results in a no score with an "NS" value. As a result, ALT overrides the EXD condition code. When a student has both alternate assessment and domain exemption, the resulting composite score will be a calculated LOSS derived from ALT.
4. Only one condition code can be applied per student per the rules listed in items one, two, or three.
5. Condition codes impact *Include Indicator* and aggregation logic.
6. Condition codes appear in the state and LEA student data (downloadable) files.

## Condition Codes (Field 90)

Code	Description	Derived From	Resulting Score	Comment
ALT	The student was tested with an alternate assessment	This code is used when, one, two, three, or four of the alternate assessment domains are selected or an alternate assessment and exemption on one or both composites are selected for the student on the test assignment screen in TOMS.	The result is the LOSS on ALT designated domain(s).	N/A
EXD	Exempt Domain	This code is used when, within a composite, only one of the two domains is selected as exempt for the student on the test assignment screen in TOMS.	The result is a calculated score for the composite using the nonexempt domain for that composite, and a derived overall score.	N/A
NT	Not Tested	This is the default condition code when valid eligibility is present, the student did not test, and the student's ELAS status changed from TBD to non-TBD.	The student is present in the data file with no score; a Student Score Report is not generated.	The NT condition code is applied as a closing event at the end of the statewide testing window and when all student scores have been imported into TOMS.

## Attemptedness and Participation Rules (Field 91)

Attemptedness/ Completion Status	Label	Description
P	Partial-completion	<ol style="list-style-type: none"> <li>1. If alternate assessment or domain exemption is assigned and the student did not log on to the nonexempt or alternate assessment domain(s), the student will be reported as tested without a valid overall score.</li> <li>2. If the student logged on to one or more domains and did not log on to the remaining domains, the student will be reported as tested without a valid overall score.</li> <li>3. Partially completed student records will be force-completed at the end of the Initial ELPAC testing window.</li> </ol>
Y	Completion	<p>Completion is assigned to students who met the participation rule.</p> <ol style="list-style-type: none"> <li>1. If a student logged on to all four domains, the student is reported as tested.</li> <li>2. If an alternate assessment or domain exemption (maximum of one domain in each composite) was assigned across all four domains, the student is reported as tested.</li> <li>3. If an alternate assessment or domain exemption was assigned to fewer than four domains, the student needed to log on to the remaining unassigned domains to complete participation in all four domains and be reported as tested.</li> </ol>

## Include Indicator Rules for Reporting

*Include Indicator* allowable values are “N” and “Y.” To determine the *Include Indicator* for ELPAC, follow the logic steps provided:

1. If the condition code is NT (not tested), then output a value of “N” and STOP; if this condition is not met, proceed to step 2.
2. If the attemptedness is “P,” then output a value of “T” and STOP; if this condition is not met, proceed to step 3.
3. If the overall attemptedness value is “Y,” then output a value of “Y” and STOP.

Include Indicators are used to determine which students and scores are included in the aggregated formulas. Include Indicators are set for each test.

## Include Indicators (Field 92)

Code	Meaning
N	The student did not test and received a condition code of NT.
T	The student tested and did not meet the participation rule or received an attemptedness value of "P" from the scoring system.
Y	The student tested and received a valid score or received an attemptedness value of "Y" from the scoring system.

## Student Move Reporting

### Use Case Scenarios

This table provides information on scenarios when a student tests and has moved between LEAs or has had a grade change. The scenarios are grouped together based on high-level use cases. While the rules indicate that the Student Score Report gets delivered to the latest enrollment location based on the CALPADS enrollment feed, the LEA downloadable file will contain all students tested and not tested in the LEA regardless of the latest enrollment.

Use Case Scenarios	Enrolled LEA Location	Tested LEA Location	CALPADS LEA Location	CALPADS Grade	TOMS Grade	LEA Student Data Files by Enrolled Location	LEA Student Data Files by Tested Location	State Aggregate File	State Student File	Student Score Report (SSR) in TOMS

## Test Eligibility and Registration Rules

TOMS received student enrollment information from CALPADS, it creates test eligibility based on the predefined set of rules that take student grade, enrolled location, and demographic attributes into consideration. Student test eligibility determines if a student’s record appears in the LEA Student Data (downloadable) files.

There is a test eligibility attribute called “validity.” Eligibility is considered valid on the basis of the student’s opportunity to test within the statewide testing window. All students with a valid indicator are included in the LEA Student Data (downloadable) files, while Invalid Indicator student records are excluded from reporting, as they may have been exited from CALPADS prior to the start of the statewide testing window *or* enrolled in CALPADS after the end of the statewide testing window. TOMS use the date when the student was removed from the CALPADS enrollment file and compares the date against the statewide testing window start and end dates. The student exit date provided by CALPADS, which may be backdated in some cases, is not used to determine whether a student was exited prior to the start of testing.

Student CALPADS ELAS, primary language, and age < 22 years demographic fields determine student eligibility. Students with an ELAS of TBD, primary language designation—not English or Sign Language, and age < 22 years — before the start of the testing are eligible to test.

## Non-TBD CALPADS ELAS Status Tested Student(s) Reporting Rules

- Student's ELAS changed from TBD to non-TBD before the start of the testing. Student's registration is changed to invalid, test block is placed in Test Delivery System (TDS) and the student cannot test.
- Student's ELAS changed from TBD to non-TBD after the start of the first test. Student registration is not removed from TOMS.
- If at the end of the testing window CALPADS ELAS = TBD, and tested, students will be reported if the [participation rules](#) are met.
- If at the end of the testing window CALPADS ELAS = non-TBD, student scores will be reported (SSRs, Student Data files, End of Year Reporting files) only if all four domains are logged on. This may include an alternate assessment, domain exemption assigned across all four domains. The ELAS needs to remain TBD in the student data file report.
- If at the end of testing window CALPADS ELAS = non-TBD, students will not be reported if all four domains are not logged on or do not have alternate assessment or domain exemptions assigned across all four domains.
  - Initial ELPAC registration for the student will be removed to exclude from all reporting deliverables.
