Subject: CAASPP and ELPAC: Current Updates to Supported Operating Systems and Browsers for 2019-2020

Measuring the Power of Learning.™

Dear LEA CAASPP or ELPAC Coordinator or Technology Coordinator:

Updates were made to supported operating systems and browsers as of January 1, 2020, for 2019–2020 online testing. These technology requirements also apply to the ELPAC as we transition to the computer-based Summative ELPAC beginning February 1, 2020.

As of January 1, only the operating systems listed on the [Secure Browsers](#) web page are supported for testing.

The desktop secure browser version 12 (Windows, MacOS, Linux) is required for all ELPAC and CAASPP computer-based test administration.

The tables that follow include the new operating systems and browsers that are supported for the 2019–20 administration.
