Subject: Computer-based Summative ELPAC Training Tests and DFAs Are Here!

Dear LEA ELPAC Coordinator:

As the 2019–20 Initial and Summative ELPAC are administered, Educational Testing Service (ETS) is helping to support ELPAC coordinators and local educational agencies (LEAs) by providing key information.

The [Practice and Training Test Resources](#) web page on the [ELPAC website](#) contains links to the training tests and *Training Test Directions for Administration (DFAs)* that will help LEAs, test examiners, and students become familiar with the new computer-based platform for the Summative ELPAC that launches in February 2020.

The computer-based ELPAC training test gives students, parents/guardians and families, teachers, administrators, and other stakeholders an opportunity to become familiar with the computer-based ELPAC. The training tests provide information about

- the types of test questions,
- how the questions are presented to students, and
- how students will navigate the computer-based platform and provide responses to test questions.

Please note: The training test will not include answer keys; practice tests will be available in November 2019.

The computer-based *ELPAC Training Test DFAs* provide instructions and scripts for administering the online training tests.

Questions regarding the 2019–20 computer-based ELPAC training tests, and *DFAs* should be directed to the California Technical Assistance Center (CalTAC) by phone at 800-955-2954 or by email at caltac@ets.org.

Sincerely,

California Technical Assistance Center
