Subject: Interim Assessments for Distance Learning Extended for 2020-21

Dear LEA CAASPP Coordinator or LEA ELPAC Coordinator:

On April 16, 2020, you received the [CAASPP: Instructions for Remote Administration of Interim Assessments](#) email regarding the ability to administer the Smarter Balanced Interim Assessments remotely. To provide flexibility to local educational agencies (LEAs) as part of distance learning, **the interim assessments will remain available to be administered remotely from now through the 2020–2021 school year.** The only time interim assessments will not be available is during scheduled downtimes, which can be found on the [2020–2021 CAASPP Planned System Downtime](#) and [2020–2021 ELPAC Planned System Downtime](#) web pages.

If educators or students require assistance administering interim assessments remotely, please refer them to the instructions located on the [CAASPP Interim Assessment Administration Resources](#) web page.

Please share this information with educators in the LEA. Questions regarding the use of interim assessments during distance learning should be directed to CalTAC, by phone at 800-955-2954 or by email at caltac@ets.org.

Sincerely,

California Technical Assistance Center
